My son has attended Mandarin Time for the last few summers (since 2021) and he has thoroughly enjoyed himself. The teachers and the admin staff have been great - very accommodating and have always made us feel "at home". The classes are really helpful with speaking, reading and writing as the main priorities. There are also many games that children will enjoy. With children, the teachers give them points, and on the last day, you can redeem a gift with the points. Recommended!

My daughter had an amazing experience at the Mandarin Time School. She made incredible progress in a short amount of time, thanks to the dedicated and friendly teachers. The atmosphere was always welcoming and supportive, making learning enjoyable and effective.
